## COMPOSIZIONI DECORATIVE DECORATIVE COMPOSITIONS

Con un occhio attento alla decorazione di interni, FLAVIKER propone composizioni grafiche realizzate a idrogetto sulle lastre ceramiche in 7 mm. Le fughe, se esaltate con stucchi a contrasto, diventano motivo decorativo. Questi soggetti sono disponibili nel formato 120x240 cm, oppure adattabili a qualsiasi misura richiesta con il servizio ON DEMAND. Il cliente dovrà fornire le esatte dimensioni della superficie da rivestire; verrà poi realizzato un disegno esecutivo con relativo preventivo. Ogni singolo pezzo che compone il soggetto verrà numerato in modo da facilitare le operazioni di posa. Fuga tra i diversi pezzi 2 mm.

With a keen eye for interior decoration, FLAVIKER offers design compositions created from waterjet-cut 7 mm thick ceramic slabs. Contrasting coloured grout can be used to enhance the joints and create a decorative pattern. These designs are available in 120x240 cm slabs or can be adapted to surfaces of any size using the ON DEMAND service. The customer will need to provide the exact dimensions of the surface to be tiled, after which a detailed drawing and quote can be made. Each piece making up the design will be numbered for ease of installation. A 2 mm joint will be maintained between the individual tiles.

La non perfetta continuità di linee, rilievi o motivi grafici tra piastrelle adiacenti è naturale conseguenza del processo produttivo, pertanto non costituisce un vizio del prodotto

Any variations in graphic designs or textures between adjacent tiles are a natural consequence of the manufacturing process and do not constitute a product defect.

Articoli realizzati in alluminio per l'uso a parete, adatti a raccordare piastrelle di diverso spessore (9 mm / 7 mm)  
Aluminium strip for use between wall tiles of different thicknesses (9 mm / 7 mm).

**X20**

Per la serie completa vedi pag.: 212  
For the complete collection see at page: 212

\* Fino ad esaurimento scorte l'art. verrà consegnato a spessore 7 mm.  
The item will be delivered 7 mm thick until stocks are exhausted.

ESEMPIO DI REALIZZAZIONE ON DEMAND EXAMPLE OF ON DEMAND SERVICE REALIZATION  
**SUPREME** THREE ON DEMAND BLACK DELUXE LUX - STILL NO\_W SAND 120X120

COMPOSIZIONI DECORATIVE DECORATIVE COMPOSITIONS

CON UN OCCHIO ATTENTO ALLA DECORAZIONE DI INTERNI, FLAVIKER PROPONE COMPOSIZIONI GRAFICHE REALIZZATE A IDROGETTO SULLE LASTRE CERAMICHE IN 7 MM. LE FUGHE, SE ESALTATE CON STUCCHI A CONTRASTO, DIVENTANO MOTIVO DECORATIVO. QUESTI SOGGETTI SONO DISPONIBILI NEL FORMATO 120X240 CM, OPPURE ADATTABILI A QUALSIASI MISURA RICHIESTA CON IL SERVIZIO ON DEMAND. IL CLIENTE DOVRA' FORNIRE LE ESATTE DIMENSIONI DELLA SUPERFICIE DA RIVESTIRE; VERRA' POI REALIZZATO UN DISEGNO ESECUTIVO CON RELATIVO PREVENTIVO. OGNI SINGOLO PEZZO CHE COMPONE IL SOGGETTO VERRA' NUMERATO IN MODO DA FACILITARE LE OPERAZIONI DI POSA. FUGA TRA I DIVERSI PEZZI 2 MM.

WITH A KEEN EYE FOR INTERIOR DECORATION, FLAVIKER OFFERS DESIGN COMPOSITIONS CREATED FROM WATERJET-CUT 7 MM THICK CERAMIC SLABS. CONTRASTING COLOURED GROUT CAN BE USED TO ENHANCE THE JOINTS AND CREATE A DECORATIVE PATTERN. THESE DESIGNS ARE AVAILABLE IN 120X240 CM SLABS OR CAN BE ADAPTED TO SURFACES OF ANY SIZE USING THE ON DEMAND SERVICE. THE CUSTOMER WILL NEED TO PROVIDE THE EXACT DIMENSIONS OF THE SURFACE TO BE TILED, AFTER WHICH A DETAILED DRAWING AND QUOTE CAN BE MADE. EACH PIECE MAKING UP THE DESIGN WILL BE NUMBERED FOR EASE OF INSTALLATION. A 2 MM JOINT WILL BE MAINTAINED BETWEEN THE INDIVIDUAL TILES.

## POSA TRADIZIONALE TRADITIONAL INSTALLATION

La posa tradizionale è ideale per la realizzazione di pavimentazioni carrabili.  
Traditional installation is ideal for floorings that will be driven over by vehicles.

## POSA A SECCO SU SABBIA DRY INSTALLATION ON SAND

La posa su sabbia permette di creare percorsi e camminamenti per spiagge e stabilimenti balneari.  
Installing on top of sand is ideal for creating paths and walkways on beaches and beach bars.

## POSA A SECCO SU GHIAIA DRY INSTALLATION ON GRAVEL

La posa su ghiaia permette il perfetto drenaggio delle acque piovane.  
Installing on gravel enables perfect drainage of rainwater.

## POSA SOPRAELEVATA DA ESTERNO OUTDOOR RAISED LAYING SYSTEM

Il sistema di pavimentazione sopraelevata prevede l'utilizzo di supporti portanti di tipo autolivellante, regolabili oppure fissi che si adattano con semplicità e sicurezza ad ogni tipo di pavimento sottostante. Il sistema permette la realizzazione di piani di posa con altezze variabili, da terra, comprese fra 25 e 270 mm. L'indipendenza della pavimentazione dai supporti garantisce l'assorbimento di eventuali movimenti strutturali. Il sistema sopraelevato non necessita di massetto in cemento e consente una diminuzione del peso sulla struttura portante. Le fughe aperte tra una piastrella ed un'altra consentono un facile deflusso dell'acqua piovana evitando tutti i rischi di accumulo o di ristagno. La presenza dell'intercapedine fra il piano di calpestio e il piano di appoggio favorisce l'aerazione e l'isolamento termico. Questa soluzione permette inoltre il passaggio di impianti e tubazioni nell'intercapedine, e la facile ispezione degli stessi una volta installata la pavimentazione.

The raised floor system foresees the use of self-levelling, adjustable or fixed load bearing supports that easily adapt to the floor below in total safety. The system is suitable to create laying designs with variable heights from the ground, which range between 25 and 270 mm. The independence of the flooring from the supports guarantees the absorption of any structural movements. The raised system does not require a cement screed and reduces the load on the bearing structure. The open joints between the tiles allow rainwater to easily drain off, avoiding any risk of water accumulation or stagnation. The gap between the tread surface and the support surface favours ventilation and heat insulation. This solution allows for the installation of systems and piping in the gap, which can be easily inspected even once the floor has been installed.

## POSA A SECCO SU ERBA DRY INSTALLATION ON GRASS

La posa diretta su erba permette di creare percorsi e camminamenti integrandosi perfettamente nell'ambiente.  
Installing directly on top of grass enables the creation of paths and walkways that blend in perfectly with the surroundings.

## CERAMIC R-EVOLUTION

Il progetto WIDE FLAVIKER parte dalla rivoluzionaria tecnologia produttiva CONTINUA+, che permette di produrre lastre in gres porcellanato robuste e leggere allo stesso tempo, grazie allo spessore ridotto di 6 e 7 mm, fino alla dimensione record di 160x320 cm. Il nuovo sistema di pressatura prevede la compattazione a secco delle materie prime e consente di ottenere superfici particolarmente apprezzabili sia per la qualità estetica che per le performance tecniche.

FLAVIKER's WIDE collection consists of tough yet lightweight porcelain slabs with a thickness of just 6 and 7 mm and a record size of 160x320 cm produced using the revolutionary CONTINUA+ technology. The new pressing system involves dry compaction of raw materials and is able to produce surfaces that combine excellent aesthetic quality with outstanding technical performance.

### WIDE & STRONG

WIDE è perfettamente idoneo sia per il rivestimento che per la pavimentazione, in ambito residenziale e commerciale. Gli spessori 6 e 7 mm consentono di mantenere un'ottima resistenza al carico di rottura reale.

WIDE is ideal as both a floor and wall covering in residential and commercial projects. The 6 and 7 mm thickness enables it to maintain excellent breaking strength in real situations.

### PESO WEIGHT

FLAVIKER 9 mm = 19,5 Kg x mq  
FLAVIKER 7 mm = 17,5 Kg x mq  
FLAVIKER 6 mm = 15,0 Kg x mq

## NEW DIMENSIONS

Uno degli obiettivi del progetto WIDE è quello di fornire un materiale ceramico tecnologicamente avanzato facilmente utilizzabile in contesti anche molto diversi, per dimensione e per destinazione d'uso. WIDE è un vero e proprio programma di formati, tutti rettificati, pensati per coprire a 360° le esigenze legate alla progettazione, a partire dagli spazi residenziali, fino alle grandi opere in ambito pubblico e commerciale.

One of the aims of the WIDE project is to supply a hi-tech ceramic material that is easy to use in very different sizes and applications. WIDE comes in a large selection of sizes, all rectified, ideal for uses ranging from residential through to large-scale works in public and commercial spaces.

## EVERYWHERE YOU LIKE

Tenendo conto delle principali qualità del materiale, tra cui la robustezza, la resistenza agli sbalzi termici, oltre allo spessore contenuto e alla facilità di lavorazione, le grandi lastre WIDE ampliano la destinazione d'uso del gres porcellanato. Sempre meno fughe e sempre più spazio alla creatività di progettisti e interior designers, che grazie ai prodotti WIDE possono apprezzare la versatilità di una ceramica senza più confini.

Taking account of the material's key qualities, including strength, thermal shock resistance, low thickness and ease of working, the WIDE large-size slabs extend the fields of use of porcelain. The WIDE collection has fewer joints while giving enormous creative freedom to architects and interior designers, who appreciate the versatility of this ceramic surface without limits.

### LITE GOES WIDE

Gli spessori 6 e 7 mm consentono e di ridurre il peso per mq con interessanti vantaggi in termini di maneggevolezza e movimentazione.

The 6 and 7 mm thickness results in a reduced weight per square metre, bringing significant advantages in terms of ease of working and handling.

### WIDE IS LEVELING

La combinazione fra impasto ad elevata plasticità, spessore e grande dimensione, dona particolare elasticità al prodotto, per ottenere risultati di posa sempre impeccabili.

The combination of a body with high plasticity, thickness and dimensions makes for a highly elastic product that delivers consistently flawless results.

### EASY AS WIDE

La formulazione dell'impasto, unita alla compattazione a secco e alla cottura in forni di nuova concezione, genera un gres particolarmente facile da tagliare e lavorare.

The chemical formulation of the body combined with the raw material dry compaction process produces a porcelain slab that is easy to cut and work with.

### WIDE MEANS GREEN

L'impasto contiene il 40% minimo di materie prime di qualità recuperate da altri processi produttivi, per questo i prodotti WIDE possono essere accreditati all'interno del sistema internazionale LEED.

As the body contains a minimum of 40% high-quality raw materials recycled from other production processes, WIDE collection products qualify for LEED international certification.

indicatore di flessibilità flexibility index	deflessione massima sotto carico di 350 N maximum deflection under load of 350 N	lato/lenght 2400 mm	> 50 mm
		lato/lenght 2700 mm	> 70 mm
		lato/lenght 3200 mm	> 100 mm

## POSA MOVIMENTAZIONE DELLE LASTRE

Durante le verifiche preliminari sul cantiere è opportuno accertare anche la possibilità di movimentare facilmente le lastre all'interno dei locali di posa. Tutti i formati che superano i 100 cm sia di lunghezza che di larghezza devono essere maneggiati da 2 posatori. Per una corretta gestione delle lastre, a partire dalla fase di apertura degli imballi, è necessario avvalersi di dispositivi idonei per la movimentazione. Per la movimentazione manuale e la successiva posa in opera delle lastre WIDE 160x320, al fine di garantire la sicurezza per gli operatori e l'integrità del materiale, è vivamente consigliato l'utilizzo di barre di movimentazione con ventose. 1

Per gli altri formati WIDE inferiori può essere sufficiente l'utilizzo delle sole ventose, anche in relazione allo spessore di 7 mm, che da una maggiore resistenza al prodotto. 2

Gli appositi carrelli di movimentazione sono ideali sul cantiere come "magazzino" per una o più lastre, oltre che per effettuare in totale sicurezza l'operazione di spalmatura dell'adesivo sul retro della lastra. 3

## LAYING HANDLING THE SLABS

When performing a preparatory inspection of the site, it is important to check whether the slabs can be handled easily in the installation area. All sizes in excess of 100 cm in either direction must be handled by 2 installers. Always use proper handling equipment to handle the slabs, from unpacking onwards.

When handling and laying WIDE 160x320 cm slabs by hand, use handling bars with suction cups to safeguard both the material and the installers themselves. 1

For smaller WIDE sizes, it may be sufficient to use just suction cups, especially given that the product is 7 mm thick and therefore quite robust. 2

Handling carts are ideally suited for holding slabs on site as well as for applying the adhesive to the back of the slab in total safety. 3

## TAGLIO DELLE LASTRE

È opportuno effettuare le operazioni di taglio su una superficie piana, stabile e planare. È consigliato l'utilizzo di guide da taglio professionali con carrello incisore. 4

Una volta rimossa la lastra dall'imballo e posizionata sul piano di lavoro segnare alle due estremità la dimensione da asportare. Posizionare e bloccare la guida di taglio, tenendo conto della distanza del disco di taglio. 5

Incidere le estremità della lastra per circa 5 cm spingendo il carrello di incisione dall'interno verso l'esterno, procedere poi con l'incisione della lastra avendo cura di esercitare una pressione ed un avanzamento del carrello costanti per tutta la lunghezza del taglio.

Traslare la lastra in modo da portare la linea di incisione al di fuori del piano di lavoro di circa 5/10 cm.

Rimuovere la guida di incisione ed iniziare l'operazione di troncatura posizionando l'apposita pinza in corrispondenza della linea incisa; esercitare una pressione leggera e progressiva verso il basso. Quest'operazione risulterà molto semplice in quanto i prodotti Wide sono privi di tensionature e per questo facilmente lavorabili. 6

A questo punto si può procedere con la finitura, che dovrà essere effettuata utilizzando gli appositi tamponi diamantati o in alternativa mediante dischi resinosi abrasivi. 7/8

## CUTTING THE SLABS

We recommend cutting the slabs on a flat, stable surface (table). Use professional cutting guides with a cutting slide. 4

Remove the slab from its packaging and place it on the table, then mark the cut at both ends. Locate and lock the cutting guide (make sure to account for the cutting disk offset). 5

Cut the ends of the slab by pushing the slide about 5 cm from the interior to the edge of the slab, then cut the slab in a single smooth, even stroke at constant pressure.

Slide the slab so that the cut line is about 5 to 10 cm beyond the edge of the table.

Remove the cutting guide and shear off the excess material with the clamp located at the cut line; exert gradual, light pressure downwards. This is made particularly easy by the fact that

Wide products have no tensioning and are thus easy to work. 6

You can now finish the slab using diamond pads or abrasive resin disks. 7/8

## TAGLI A L/SCASSI/ FORI RETTANGOLARI

Una volta tracciata sulla lastra la porzione da asportare è opportuno eseguire, in corrispondenza del punto di congiunzione delle linee, fori di diametro 6/8 mm con foretti diamantati a umido o a secco. 9

Congiungere poi i fori mediante una smerigliatrice angolare equipaggiata con disco diamantato (diametro max. 125 mm) 10

## CUTS L CUTS / RECESSED CUTS / RECTANGULAR HOLES

Once you have marked the cut on the slab, drill through the corners of the cut with a dry or wet 6 or 8 mm diamond bit. 9

Now join up the holes with an angle grinder fitted with a diamond disk (maximum dia. 125 mm) 10

## INCOLLAGGIO

Le lastre WIDE richiedono l'utilizzo della tecnica a doppia spalmatura, ovvero il collante dev'essere applicato sia sul fondo di posa che sul retro della lastra. **11**  
 Assicurarsi che la superficie da rivestire sia consistente, planare, priva di polvere e di unti/grassi, così come è bene rimuovere le polveri che possono trovarsi a contatto delle lastre. Stendere il collante sulla superficie da rivestire con spatola a denti inclinati con dente minimo di 8mm con movimenti lineari e mai circolari.  
 Stendere il collante sul retro della lastra con spatola dentata mai inferiore a 5 mm (tenendo conto che la somma delle spatole utilizzate per sottofondo e lastra dev'essere compresa fra i 13 e i 14mm).  
 Per garantire la perfetta posa dei prodotti WIDE occorre far defluire per vibrazione le bolle d'aria che si possono formare fra la lastra e l'adesivo fino a ottenere il "letto pieno" di collante. Per fare ciò è consigliabile avvalersi di un battitore manuale in gomma oppure utilizzare gli appositi dispositivi elettrici batti-piastrelle. **12/13**  
 In relazione al grande formato è consigliato l'utilizzo di distanziali livellanti facendo attenzione che lo strato di adesivo fra lastra e massetto sia almeno di 4 mm, per evitare interruzioni nella massa adesiva. **14/15**  
 La fuga minima consigliata, in relazione alla posizione dei giunti di dilatazione, è di 2 mm. Nel caso di pareti e pavimenti a contatto, da posare entrambi con lastre ceramiche, è indispensabile rispettare questa larghezza minima per garantire un perfetto risultato nel tempo. A rivestimento è possibile realizzare fughe inferiori in base alle opportune verifiche tecniche da effettuarsi sul cantiere. Le fughe dovranno essere riempite per almeno i 2/3 dello spessore con l'apposito sigillante, pertanto occorre prestare attenzione all'eventuale presenza di residui di adesivo all'interno.

## GLUING

WIDE slabs must be back-buttered; in other words, the adhesive must be applied both to the substrate and the back of the slab. **11**  
 Make sure the surface is stable, flat, clear of grease and dust, and also wipe off any dust on the back of the slab.  
 Apply the adhesive to the surface with an angled tooth trowel (at least 8 mm), in a linear motion (never in circles).  
 Apply the adhesive to the back of the slab with a toothed trowel (at least 5 mm); note that the sum of the trowel sizes used for the slab and substrate must be 13 - 14 mm.  
 To ensure perfect installation of WIDE products, use vibration to eliminate any bubbles between the slab and the adhesive to obtain a full bonding effect. Use either a rubber mallet or electric tile vibrator for this purpose. **12/13**  
 When installing large sizes, we recommend using levelling spacers; the layer of adhesive between the slab and the substrate must be at least 4 mm thick to ensure continuity. **14/15**  
 The expansion joint between slabs should be at least 2 mm wide. For contact walls and floors, both installed with ceramic slabs, this minimum dimension must be used to ensure a long-lasting result. A smaller joint width is possible when installing walls, following technical inspection on site. The joints must be filled to at least 2/3 of their depth with sealant; take care to remove all adhesive from the joint first.

Indicazioni tecniche sviluppate in collaborazione con Assoposa. Technical instructions developed in collaboration with Assoposa.

## LOGISTICA NUOVI SISTEMI DI IMBALLO

L'innovazione della gamma WIDE si esprime anche attraverso la parte logistica del progetto. FLAVIKER Group rivoluziona il sistema di imballaggio delle lastre ed è a oggi l'unica azienda che ha portato il sistema a cavalletto impilabile alla dimensione di cm 75x246x149, 75x276x147,5, 75x168x109 e 75x26x200.

- Questi i principali vantaggi offerti:
- essendo impilabile permette di ottimizzare gli spazi all'interno dei magazzini.\*
  - la profondità di 75 cm consente di sfruttare a pieno il volume di carico dei container (3 pallets ne occupano perfettamente la larghezza).
  - Il posizionamento verticale del prodotto garantisce una maggiore protezione delle lastre durante le fasi di trasporto.
  - facilita le operazioni sul cantiere in quanto le lastre si trovano già posizionate in verticale, il materiale è facilmente ispezionabile e removibile per l'installazione.
  - le dimensioni complessive del cavalletto consentono maggiori spazi di manovra all'interno dei locali di posa rispetto alle casse tradizionali e agevolano il sollevamento del materiale mediante mezzi meccanici (gru-montacarichi).
  - è caratterizzato da un sistema di regettatura che consente di liberare anche 1 solo collo alla volta, senza compromettere la stabilità del materiale che rimane sul pallet, evitando così il rischio di rotture. Le lastre dovranno essere liberate rispettando la sequenza opposta rispetto a quella con cui sono state confezionate, quindi iniziando dall'ultimo collo regettato.

## LOGISTICS NEW PACKAGING SYSTEMS

Innovation in the WIDE range is also reflected in the project's logistics. FLAVIKER Group has revolutionised the packaging of ceramic slabs and is the only company to have expanded the stacking rack pallet system to the 75x246x149, 75x276x147,5, 75x168x109 and 75x26x200 cm size.

- This has the following advantages:
- stacking optimises the use of space in warehouses.\*
  - the 75 cm depth enables full use of container load space (3 pallets fit perfectly side by side). The vertical positioning of the product better protects the slabs during shipping.
  - it facilitates work on site, since the slabs are already positioned vertically, making the material easy to inspect and remove for installation.
  - the overall size of the rack pallet provides greater space for manoeuvring in the installation area in comparison with conventional crates, and also makes it easier to lift the slabs mechanically (with a crane or lift).
  - the rack pallet system employs strapping which allows the user to remove a single package at a time without affecting the stability of the other packages on the pallet, thus minimising the risk of breakage. The slabs must be released from the packaging by reversing the packaging sequence, i.e. starting with the last package to have been strapped on.

### CAVALLETTO impilabile Stackable Rack pallet

Modalità di trasporto consigliata per ottenere la massima visibilità.

Recommended transport system for maximum visibility.

## CARATTERISTICHE

Auto-Leveling garantisce la massima facilità di posa ai listoni di grande formato. La tecnologia si basa sull'impiego di impasti a base di materie prime per loro natura altamente stabili e resistenti, ma al tempo stesso ad elevata plasticità, che conferiscono a questa tipologia di prodotti qualità uniche. Il materiale ottenuto, caratterizzato da un minimo grado di convessità, aderisce perfettamente al massetto. Una volta posata, la piastrella si auto-livella, mantenendo una perfetta planarità. La tecnologia Auto-Leveling si applica alle lastre ceramiche nei formati 20x170 e 40x170 cm (sp9mm).

## CHARACTERISTICS

Auto-Leveling guarantees the maximum ease of installation for large-format planks. The technology uses raw materials that combine stability and strength with high plasticity, giving unique qualities to this type of product. The resultant tiles have a small degree of convexity and bond perfectly to the screed. Once installed, the tiles self-level and maintain perfect flatness. Auto-Leveling technology is used for ceramic tiles in sizes 20x170 cm and 40x170 cm (thickness 9mm).

Lastre prodotte con materie prime ad elevata plasticità, resistenti ma flessibili.  
Ceramic slabs manufactured with highly plastic raw materials, strong and flexible at the same time.

Appoggiate su qualsiasi superficie, anche non perfettamente planare, le lastre si auto-livellano.  
Laid on the screed they self-level, even if the surface is not perfectly flat.

50% OK

Il prodotto auto-leveling agevola la posa tradizionale, si monta senza distanziali livellanti, seguendo qualsiasi schema di posa.  
Auto-leveling tiles help the traditional fixing, every installation pattern can be achieved, without leveling spacers.

indicatore di flessibilità flexibility index	deflessione massima sotto carico di 350 N maximum deflection under load of 350 N	lato/lenght 1200 mm	> 20 mm
		lato/lenght 1700 mm	> 30 mm

## ECOSOSTENIBILITÀ / ECO-SUSTAINABILITY

Un ambiente Flaviker, oltre a distinguersi per il design, è sinonimo di qualità Made in Italy, ottenuta seguendo standard di sostenibilità sempre più evoluti.

L'80% dei materiali contenuti in questo catalogo viene prodotto con impasto ECO-BODY, contenente un 40% minimo di materie prime di qualità, recuperate da lavorazioni interne ed esterne; il valore di questa operazione è certificato da Bureau Veritas, che accredita i prodotti ECO-BODY anche all'interno del sistema internazionale LEED.

Flaviker promuove l'edilizia sostenibile, per questo è socio di Green Building Council Italia, l'associazione italiana dei leader che operano per trasformare il mercato dell'edilizia verso la sostenibilità ambientale. I soci GBC Italia promuovono la responsabilità ambientale, economica e sociale con contributi concreti all'innovazione, nel modo in cui gli edifici sono progettati, realizzati e utilizzati.

An Flaviker setting stands out as the standard-bearer of the Made in Italy design by pursuing continuously evolving sustainability standards.

Almost 80% of the materials illustrated in this catalogue is produced using the ceramic mixture ECO-BODY, which contains a minimum of 40% high-quality recycled material recovered from internal and external industrial processes. The sustainability performance in these operations is officially certified by Bureau Veritas, that also validates ECO-BODY products to the standards of the LEED international rating system.

With a view to promoting sustainable building, Flaviker has become a member of Green Building Council Italia, the Italian association of top leaders with an aim to implementing more sustainable practices in the building industry. The members of GBC Italia promote environmental, economical and social responsibility, while contributing in a concrete way to innovation in terms of building design, realization and utilization.

Il gradone Jolly **JO** di **OLMOlab** è un pre-assemblato costituito da due lastre in gres porcellanato: la pedata, di dimensione 120x40 cm e l'alzata di dimensione 120x20 cm, tenute insieme perpendicolarmente lungo lo spigolo da una resina ad alta resistenza.

Le dimensioni di questo elemento pre-assemblato sono state studiate per permettere ai posatori, una volta calcolate le reali dimensioni della scala, di ricavarne tutte le parti che compongono il gradino definitivo (un fascione, da cui si possono estrapolare gli elementi laterali e il battiscopa e l'elemento gradino già assemblato).

**JO**, è caratterizzato da una lavorazione "JOLLY" in tutti i lati, in modo da facilitare il lavoro dei posatori nella fase di assemblaggio (vedi puntini neri nel disegno in basso).

The Jolly **JO** step from **OLMOlab** is a pre-assembled unit consisting of two porcelain slabs (a 120x40 cm tread and a 120x20 cm riser) held together at right-angles by a high-strength resin.

The dimensions of this pre-assembled unit are specially chosen to enable tile layers to cut out all the components of the finished step (a strip, from which the side pieces and skirting can be cut, and the pre-assembled step itself) according to the real dimensions of the stairs.

**JO** comes with mitred edges on all sides to facilitate the tile layer's work during assembly (see black dots in drawing below).

**FASCIONE**  
Dall'elemento "fascione" si possono ricavare laterali L1 e L2 e il battiscopa B1 e B2.

**STRIP**  
The strip can be cut into the side pieces L1 and L2 and the skirting elements B1 and B2.

## GRADINO

L'elemento "gradino", una volta rifilata la lastra verticale, riportandola alla giusta dimensione dell'alzata, è pronto per essere posato, presentando i 2 lati "jollati" da assemblare con i "laterali" L1 ed L2. Anche gli elementi B1 e B2 sono pronti per essere posizionati.

## STEP

After trimming the vertical section to the correct size for the riser, the step element is ready for installation. It comes with 2 mitred edges to ensure a perfect joint with the side pieces L1 and L2. The skirting elements B1 and B2 are also ready to be installed.

## AVVERTENZE GENERALI

Indipendentemente dal tipo di prodotto e formato scelto, prima di procedere con la posa è opportuno fare una verifica sul cantiere per valutare le condizioni dei sottofondi. La posa richiede le migliori condizioni del sottofondo. Che dovrà sempre essere:

- asciutto e stagionato
- planare e privo di fessurazioni
- pulito, libero da polvere detriti o grumi di cemento
- compatto e resistente

La perfetta riuscita di un pavimento o di un rivestimento è il frutto della combinazione di molteplici fattori; per ottenere il migliore effetto estetico nella posa è opportuno ricordare che i prodotti FLAVIKER Group prevedono un numero variabile di pattern grafici, la cui successione all'interno delle scatole avviene in modo del tutto casuale.

## POSA DEI PRODOTTI RETTIFICATI

Per raggiungere un effetto ottimale FLAVIKER suggerisce di mantenere almeno 1 o 2 mm di fuga per una posa mono-formato e 2 mm per combinare formati misti nelle pose modulari suggerite dai cataloghi.

## POSA DEI PRODOTTI NON RETTIFICATI

L'alto grado di vitrificazione delle piastrelle FLAVIKER comporta modeste tolleranze di calibro, pertanto nella posa dei prodotti a bordo naturale è consigliabile lasciare una fuga di almeno 3 mm fra le piastrelle.

## OPERAZIONI PRELIMINARI

Una volta scelto il materiale da posare, coerentemente con i requisiti tecnici, lo stile e la destinazione d'uso degli ambienti, è bene seguire alcune raccomandazioni prima di procedere con l'installazione.:

- stendere a terra almeno 3mq di prodotto per controllare l'effetto d'insieme, avendo cura di verificare accuratamente calibro, tonalità e scelta.
- Specie nel caso di prodotti con elevata variabilità grafica, è bene posare il materiale attingendo da più scatole, le variazioni grafiche e cromatiche del prodotto sono una caratteristica qualificante che l'abilità del posatore può valorizzare, al contrario un prodotto posato senza tenerne conto può risultare esteticamente poco gradevole.
- È opportuno evitare di segnare la parte superiore delle piastrelle con matite o pennarelli e dedicare particolare attenzione ai prodotti lucidi, patinati o lappati che dovranno essere coperti durante i lavori di cantiere.
- Attendere 48/72 ore prima di sottoporre il pavimento al normale transito.

La posa senza fuga, soprattutto nei grandi formati è fortemente sconsigliata dai maggiori produttori di collante per i seguenti motivi:

- Difficoltà di assorbimento di eventuali movimenti strutturali in assenza di elementi comprimibili
  - Diverso comportamento dilatometrico fra piastrelle e massetto, in presenza di elevate escursioni termiche
  - Difficoltà di realizzazione di una duratura ed efficace stuccatura
- FLAVIKER sconsiglia assolutamente pose senza fuga, per le quali si declina ogni responsabilità.

Durante le operazioni di posa, nel caso venga scelto uno schema sfalsato, evitare di far coincidere i vertici di una piastrella con la metà delle altre a fianco. Soltanto i prodotti AUTO-LEVELING si prestano ad essere posati seguendo liberamente ogni schema di posa.

## GENERAL WARNINGS

Regardless of the chosen product type or size, an on-site inspection should be carried out prior to installation to assess the conditions of the substrates. Perfect substrate conditions are essential for a successful installation. Substrates must be:

- dry and properly cured
- flat and free of cracks
- clean and free of dust, debris or lumps of cement
- compact and strong

The success of a floor or wall tile installation is the result of a combination of multiple factors; to achieve the best possible aesthetic effect in installation, remember that FLAVIKER Group products come in a variable number of graphic patterns packed in boxes in a completely random sequence.

## INSTALLATION OF RECTIFIED-EDGED TILES

For optimal results, FLAVIKER recommends allowing a joint of at least 1 or 2 mm when laying same-sized tiles and 2 mm for different-sized tiles laid using the modular systems described in the catalogues.

## INSTALLATION OF NON-RECTIFIED TILES

The high degree of vitrification of FLAVIKER tiles means dimensional tolerances are low. Therefore, when laying tiles with natural press-formed edges, at least a 3mm joint should be allowed between each tile.

## PRELIMINARY OPERATIONS

It is advisable to follow some recommendations before proceeding with the installation of the selected tiling material, which should be carried out in compliance with the technical requirements, style and intended application;

- Place some tiles (at least 3 m<sup>2</sup>) over the flooring surface to check the final effect, making sure you have the right tile size, shade, and quality class.
- In the case of products whose graphics tend to differ considerably from one tile to the next, it is advisable to take the tiles from different boxes and mix them. The graphic and colour variations of the tiles are an important feature which can be enhanced by a skilled tile layer. Overlooking such features, on the contrary, may lead to poor aesthetic results.
- Avoid marking the front of the tiles with pencils or markers. Be particularly careful with glossy, matt or lapped tiles, which should be kept covered during building work.
- Wait 48/72 hours before walking over the newly laid tiles.

Jointless tile installation, particularly in the case of large-size tiles, is strongly advised against by most adhesive manufacturers for the following reasons:

- Any structural adjustments may not be absorbed due to the lack of compressible material.
  - Wide temperature ranges may cause expansion effects between the tile and screed.
  - Effective, durable grout joints may be difficult to achieve.
- FLAVIKER strongly advises against jointless tile installation and cannot be held liable for any damage deriving therefrom.

When laying tiles in a staggered pattern, make sure there are no tiles positioned with the corner coinciding with the centre of the adjacent tiles. Only AUTO-LEVELING products are suitable for all installation patterns.

## STUCCATURA

- 1) Qualora non si utilizzasse la boiaccia composta da cemento e sabbia, si consiglia di utilizzare colori di stucco su tono (possibilmente non utilizzare su materiali di colore chiaro stucchi di colore scuro, tipo nero, blu, rosso) e di verificare la compatibilità dei riempitivi per fughe con il prodotto ceramico.
- 2) Riempire le fughe con gli stucchi solo quando il pavimento è calpestabile, togliendo preventivamente dalle fughe ogni tipo di residuo.
- 3) Eseguire la stuccatura a "regola d'arte", seguendo le indicazioni del progettista, del responsabile di cantiere e del capitolato di posa.
- 4) Stuccare piccole superfici per volta (4/5 mq) e asportare le quantità eccedenti con spugne o stracci umidi (di sola acqua pulita).
- 5) Stucchi cementizi non additivati: seguire attentamente le indicazioni dei fabbricanti, a fine giornata pulire i residui di posa con spugna appena bagnata.
- 6) Stucchi epossidici o additivati (con lattici, ecc.): seguire attentamente le indicazioni dei fabbricanti, perché il loro rapido indurimento può richiedere pulizie molto laboriose, specialmente se la superficie delle piastrelle è antiscivolo, ruvida o strutturata.

## GROUTING

- 1)Should a grout made of cement and sand not be used, it is recommended to use shade-on-shade grouts (do not use dark grouts, such as black, blue or red, on bright materials) and to verify the compatibility of the grouts with the ceramic tile.
- 2)Fill the grout lines with the grout only when the floor has sufficiently set to be ready to tread on, removing any residue from the grout lines.
- 3)Carry out a state-of-the-art grouting following the layer and technician's instructions and the technical specifications.
- 4)Grout small areas of the surface at a time (4m<sup>2</sup> to 5m<sup>2</sup>) and remove excess grout with a sponge or a wet cloth (with clean water).
- 5)Non-added cement grouts: follow the manufacturer's instructions carefully and at the end of the working day clean the surface with a slightly damp sponge.
- 6)Epoxy grouts or added grouts (with latex, etc): follow the manufacturer's instructions to the letter as rapid hardening can lead to difficult cleaning operations, especially in case of anti-slip, rough or textured tiles.

## CONSIGLI PER LA POSA E LA PULIZIA / INSTALLATION AND CLEANING ADVICE

### LAVAGGIO DOPO LA POSA

Il lavaggio dopo la posa è una fase di fondamentale importanza per tutti gli interventi successivi e per la manutenzione. La pulizia di fine cantiere fatta con prodotti a base acida tamponati, quali ad esempio Deterdek di Fila o Cement Remover di Faber etc. va eseguita una sola volta e presenta l'ulteriore vantaggio di conferire uniformità cromatica alla superficie. Con il lavaggio acido dopo la posa si eliminano i residui di posa e il normale sporco di cantiere come: malta, colla, pittura, sporco da cantiere di varia natura. E' bene sapere che oltre il 90% delle contestazioni in cantiere è dovuto ad un cattivo, o addirittura inesistente, lavaggio con detergente acido dopo posa. Per evitare che un prodotto a base acida usato per la prima pulizia vada ad intaccare il riempimento a base cementizia delle fughe, è necessario, prima dell'operazione di pulizia, bagnare il pavimento affinché le fughe vengano impregnate e pertanto protette dall'azione corrosiva dell'acido stesso.

È opportuno:

- Togliere con appositi detergenti a base alcalina sostanze grasse o simili
- Procedere al lavaggio dopo la posa
- Risciacquare abbondantemente il pavimento, raccogliendo l'acqua residua.
- La pulizia si esegue dopo 4-5 giorni dalla stuccatura (lo stucco deve indurire) e non oltre i 10 giorni, oltre questi tempi la pulizia può diventare molto più laboriosa; attenersi scrupolosamente ai consigli riportati dal produttore di detergenti.

Fare sempre test preventivi (su una piastrella non posata), in particolare per prodotti lappati o levigati.

### POSA E PULIZIA DI DECORI CON MATERIALI NATURALI

#### 3x30 CM. FASCIA SLATE ROSSO / SLATE NERO

I tozzetti che compongono il decoro sono ricavati, uno ad uno, dal taglio di lastre di ardesia di vari formati, ma sempre di spessore 10 mm. Trattandosi di “pietra naturale” determinate irregolarità di superficie e di spessore fanno parte del prodotto e ne sono caratteristica insopprimibile. La posa in opera va fatta utilizzando le normali colle ceramiche da mosaico, usando la tecnica della doppia spalmatura. Per la stuccatura usare esclusivamente stucchi epossidici, avendo cura di rimuovere l'eccedenza prima della completa essiccazione. La manutenzione e la pulizia vanno fatte utilizzan-do i normali prodotti per il marmo / pietre naturali reperibili sul mercato, evitando i prodotti abrasivi.

#### 2x30 CM. OAK GREY / WALNUT BEIGE

Componente legno: essenza di legno naturale lavorato artigianalmente a singolo pezzo e verniciato in modo da renderlo praticamente inassorbente. Componente supporto: il legno è supportato da WPC in lastre. Un materiale perfettamente stabile, ignifugo, inattaccabile da muffe e funghi e re-sistente a tutti gli acidi di uso domestico. Posa in opera e stuccatura: si possono usare le normali colle ceramiche da mosaico, utilizzando la tecnica della doppia spalmatura. Per la stuccatura usare esclusivamente stucchi epossidici, avendo cura di rimuovere l'eccedenza prima della completa essiccazione. Manutenzione e pulizia: si possono utilizzare i normali prodotti per il legno reperibili sul mercato, evitando assolutamente qualsiasi prodotto abrasivo.

#### CLEANING AFTER INSTALLATION

The cleaning after installation is of fundamental importance for all the subsequent steps and for a correct maintenance. Post-installation cleaning using acid detergents with a padding action such as Fila Deterdek or Faber Cement Remover must be carried out only once and only if this would result in the added bonus of giving the surface a more uniform aspect. Acid-cleaning will remove all residue associated with the installation and works in general, such as mortar, adhesive, paint and dirt. It is important to underline that 90% of complaints are due to a bad, or even inexistent cle-aning after installation. In order to make sure that an acid detergent used for the cleaning does not compromise the filling of grout lines, it is necessary, before proceeding with cleaning, to wet the floors so that the grout lines are impregnated and protected from the corrosive action of the acid. It is recommended to follow these steps:

- First, remove any grease or similar substance from the floor using alkaline detergents
- Proceed with the cleaning of the surface
- Rinse the floors with an abundance of water
- The cleaning must be carried out 4-5 days after grouting (the grout must season) and within a maximum of 10 days after grouting, as, beyond this period of time the cleaning can be difficult, carefully follow the manufacturer's instructions for the use of detergents.

It is always recommended to carry out a test on a sample tile (not installed), in particular in case of honed or polished products.

### LAYING AND CLEANING DECORS PRODUCED WITH NATURAL COMPONENTS

#### 3x30 CM. FASCIA SLATE ROSSO / SLATE NERO

The individual elements that make up the decorative piece are cut one by one from slabs of slate of various sizes, all with a thickness of 10 mm. Because they are made of natural stone, they are inevitably subject to surface and thickness irregularities. The decorative piece should be installed using normal ceramic mosaic adhesives and employing the back-buttering technique. Use exclusively epoxy grouts, being sure to remove any excess before it has dried completely. For maintenance and cleaning, use normal commercially-available products designed for marble/ natural stone. Do not use abrasive products.

#### 2x30 CM. OAK GREY / WALNUT BEIGE

Wood component: each natural wood piece is individually handcrafted and varnished to make it completely non-absorbent. Substrate: the wood is mounted on WPC panels.This material is per-fectly stable, fireproof and resistant to mould and fungi as well as all household acids. Installation and grouting:use normal ceramic mosaic adhesives and employ the back-buttering technique. Use exclusively epoxy grouts, being sure to remove any excess before it has dried completely. Maintenance and cleaning:use normal commercially-available wood products. Do not use abrasive products.

## PULIZIA E MANUTENZIONE / CLEANING AND MAINTENANCE

### MANUTENZIONE ORDINARIA

Si consiglia l'utilizzo di un comune detergente neutro diluito in acqua calda. Evitare l'utilizzo di prodotti acidi, alcalini, ceranti e/o impregnanti.

Nella pulizia ordinaria occorre limitare al massimo l'uso di mezzi abrasivi (ad esempio: paglietta di metallo, spugnette di ferro o acciaio). Questa precauzione diventa un obbligo nel caso di piastrelle con superficie lucida, più esposte ad effetti visibili di scalfitture, graffi...

In caso di sporchi più intensi o di superfici particolarmente strutturate, usare un detergente a base alcalina risciacquando al termine del lavaggio.

Nella pratica quotidiana occorre considerare che certi tipi di sporco (polvere, sabbia) aumentano l'effetto abrasivo del traffico pedonale. Cercare quindi di prevenire la presenza di questa tipologia di sporco dall'esterno, predisponendo l'utilizzo di zerbino o stuoino all'ingresso.

### RIMOZIONE DI PATINE LUCIDE

Nei normali detergenti in commercio sono a volte contenute cere o additivi lucidanti che, lavaggio dopo lavaggio, depositano sul pavimento patine lucide, causa di noiose alonature. Patine di questo tipo possono essere depositate anche da alcuni stucchi per le fughe. Semplici alimenti come Coca Cola, vino, acqua, etc., cadendo sul pavimento tolgono questa patina lucida e ripristinano l'aspetto originale più opaco delle piastrelle. In mezzo al pavimento più lucido, le zone senza cera appaiono come aloni opachi, in realtà sono le uniche parti pulite del pavimento.

In questi casi, dopo aver fatto un test preventivo, bisogna:

- Togliere la patina lucida da tutto il pavimento con un tipo di detergente a base acida.

- Utilizzare per le pulizie quotidiane, detergenti neutri che non contengono né cere né patine lucidanti.

### MANUTENZIONE STRAORDINARIA

Nel caso di tracce di sporco resistente alla pulizia ordinaria si raccomanda l'utilizzo di un detergen-te adeguato in funzione del tipo di sporco e comunque, prima dell'uso, fare sempre test preventivi su una piastrella non posata. Nella tabella “PRODOTTI PER LA PULIZIA E LA MANUTENZIONE” sono indicati i detergenti efficaci in funzione del tipo di macchia.

### PAVIMENTI E RIVESTIMENTI METALLIZZATI

Per la pulizia e manutenzione di piastrelle metallizzate si raccomanda di non usare assolutamente detergenti acidi o alcalini. Usare esclusivamente prodotti con PH neutro come ad esempio Fila Cleaner o Floor Cleaner di Faber. In ogni caso verificare sempre prima il prodotto su una porzione di materiale non posato ed evitare di lasciare il detergente sulle piastrelle per più di 10-15 min. Risciacquare sempre abbondantemente con acqua.

### TRATTAMENTO PRODOTTI LAPPATI E LEVIGATI

Lappatura e Levigatura sono lavorazioni che prevedono sempre l'asportazione di una parte super-ficiale dello smalto o del corpo stesso della piastrella. In tutti i pavimenti ceramici disponibili sul mercato, tale lavorazione, pur in presenza di materiali vetrosi o a bassissimo assorbimento, può comportare l'apertura di microporosità superficiali che a contatto con particolari tipi di sporco, possono risultare di difficile pulizia o presentare aloni difficilmente rimuovibili.

### RACCOMANDAZIONI

Ricordiamo di non usare mai detergenti a base di acido fluoridrico (HF) o dei suoi composti, com-presi antiruggine o smacchiatori di tipo spray che spesso lo contengono. Il danno che si potrà provocare sarà irreparabile in quanto non esiste pavimento sul mercato resistente a tale acido.

### AVVERTENZE

Le caratteristiche di pulizia dei materiali variano in modo significativo in funzione delle diver-se modalità di installazione, condizioni d'uso, tipologie di superfici e ambiente. In linea generale all'aumentare delle caratteristiche di anticivolosità delle piastrelle, aumentano le difficoltà di pu-lizia. L'operatore professionale incaricato dell'intervento di manutenzione e pulizia, dovrà sempre procedere ad una preliminare verifica empirica, possibilmente su una porzione di materiale non posato, per ogni singolo tipo di intervento.

In caso di condizioni d'uso particolarmente gravose, di errata installazione o di pulizie effettuate in modo inadeguato FLAVIKER declina ogni responsabilità in merito all'efficacia delle operazio-ni di pulizia e manutenzione. Resta inteso che FLAVIKER non potrà essere ritenuta responsabile per eventuali danni o difetti dovuti ad errata installazione, negligente pulizia e manutenzione o inadeguata scelta della tipologia dei materiali installati e degli adesivi utilizzati con riguardo alla destinazione.

Le indicazioni contenute in questo paragrafo sono puramente indicative. Per notizie più approfondite rimandiamo a documentazione specializzata disponibile su cataloghi e siti web delle principali ditte produttrici di prodotti specifici per la pulizia dei pavimenti.

### DAILY MAINTENANCE

It is recommended to clean the floor using a neutral detergent diluted in hot water. Avoid the use of acid, alkaline, waxing and/or impregnating products.

During ordinary cleaning procedures, it is recommended to limit the use of abrasive means such as scouring pads, iron and/or steel sponges. Taking this precaution is a must on glossy tiles, as they are more liable to scratching.

In case of intense dirt or textured surfaces, use an alkaline detergent, rinsing the floor with an abundance of water.

It is important to underline that certain types of dirt like dust or sand, increase the abrasive effect of foot traffic on the surface. The use of a door mat at the entrance can help prevent this.

### REMOVAL OF FILMS ON THE FLOOR

The standard detergents available on the market sometimes contain waxes or polishing additives that, cleaning after cleaning, create a film on the floor and cause rims. This type of film can also develop when using certain types of grouts. Every-day stains on the floor, such as cola, wine, water, etc. remove this film and reveal the original, more opaque aspect of the tiled surface. On a glossy floor, these areas with no wax appear as rims but, in actual fact, they are the only clean areas of the floor itself.

In such cases, after having carried out a test, it is necessary to:

- Remove the film from the floor using an acid detergent.

Use neutral detergents, which do not contain wax or polishing additives for everyday cleaning.

### EXTRAORDINARY MAINTENANCE

In case of stains that are resistant to standard cleaning operations, it is recommended to use a specific detergent depending on the type of dirt and, every single time before using such detergent, to carry out a test on a non-installed sample tile. The chart “REMOVE STAINS” indicates the recom-mended detergents that are effective for certain specific stains.

### METALLISED FLOOR AND WALL COVERINGS

For the cleaning and maintenance of metallised tiles, it is recommended not to use acid or alkaline detergents. Use products with neutral PH such as Fila Cleaner or Faber Floor Cleaner. Every single time, test the product on a sample tile that has not been installed and do not leave the detergent on the tiles for more than 10-15 minutes. Always rinse the surface with an abundance of water.

### TREATMENT OF HONED AND POLISHED TILES

Honing and polishing are manufacturing processes that always remove a superficial part of the glaze or of the body of the tile itself. All honed and/or polished ceramic tiles available on the mar-ket have a micro-porous structure that, even when using low absorpction vitreous materials, are vulnerable to attack from certain types of dirt that can attack the micro-porous structure and make cleaning operations very difficult.

### RECOMMENDATIONS

Never use hydrofluoric acid-based detergents or its derivatives, such as rust-preventing products or spray stain-removers that often contain hydrofluoric acid. The use of hydrofluoric acid will irre-parably damage the surface, as no ceramic tile floor available on the market is resistant to this acid.

### WARNING

The cleaning features of materials considerably vary depending on the installation pattern, the conditions of use and the type of surface. As a general rule, as the anti-slip value of ceramic tile increases, the cleaning operations become more difficult. The professional technician in charge of the cleaning and maintenance must always carry out a preliminary test on a sample tile that has not been installed before proceeding with any cleaning operation.

In case of special conditions of use, incorrect installation or inadequate cleaning, Ceramiche FLA-VIKER will not be responsible for the effectiveness of cleaning and maintenance procedures. It is agreed that FLAVIKER will not be responsible for any damage or defects that are due to incorrect installation, cleaning and maintenance or due a wrong choice of materials and adhesives.

The above-stated instructions are merely indicative. For in-depth information, please consult the specific documents that are available on the catalogues and web-site of the manufacturers of detergents for ceramic floors.

- 1) APPROVAZIONE** - Gli ordini pervenuti sono per noi impegnativi solo dopo la nostra conferma scritta.
- 2) CONSEGNA** - La consegna del materiale s'intende avvenuta a carico effettuato presso i nostri magazzini. Tutti i rischi di trasporto, compresi ammanchi, rotture, deterioramenti e manomissioni sono a carico del Committente anche se il prezzo pattuito è franco di porto, FOB o C&F. Gli accordi con spedizionieri s'intendono sempre conclusi in nome e per conto del Committente che fin d'ora ratifica ed accetta l'operato.
- 3) TERMINI DI CONSEGNA** - I termini di consegna hanno carattere indicativo, eventuali ritardi nelle consegne, interruzioni, sospensioni totali o parziali delle forniture non daranno diritto ad indennizzi o risarcimento danni.
- 4) CONTESTAZIONI** - La garanzia della merce è limitata al solo, ed esclusivamente, materiale di prima scelta, con una tolleranza del 5% circa. Le differenze di tonalità non potranno essere denunciate come vizio del materiale. Eventuali reclami in merito alla qualità, tipo del materiale, dovranno pervenirci entro 8 giorni dalla data di consegna. Il compratore s'impegna a tenere a disposizione le partite contestate così da consentire il controllo dei difetti denunciati, in ogni caso la posa in opera ci esonererà da qualsiasi responsabilità. Eventuali vizi o difetti di qualità della merce, ove siano denunciati nei termini di legge ed accertati o riconosciuti, danno diritto solamente alla sostituzione dei materiali difettosi, a condizione della preventiva restituzione delle merci contestate, e, su autorizzazione scritta dell'operazione di resa, restando tassativamente esclusi la risoluzione del contratto e qualsiasi risarcimento danni.
- 5) DIMENSIONI E TONALITÀ** - I nostri materiali sono da classificarsi fra i prodotti cotti ad alta temperatura e come tali possono presentare differenze tra le dimensioni dichiarate e quelle effettivamente consegnate. Così si dica per le differenze di tono all'interno della medesima partita. Quanto sopra perciò non potrà essere oggetto di reclamo da parte del committente.
- 6) IMBALLO E QUANTITÀ** - Il buono stato degli imballi e della loro confezione nonché della quantità consegnata resta accertato con l'accettazione della merce da parte del vettore. Questi, firmando la Bolla di Accompagnamento, si rende responsabile del buono stato del materiale e del quantitativo. Il compratore nel caso si verificano rotture ed ammanchi dovrà chiedere eventuali danni o risarcimenti al vettore.
- 7) RESI** - Per nessuna ragione l'acquirente potrà restituire il materiale senza nostra espressa preventiva autorizzazione scritta e tutte le spese sono a carico del Committente.
- 8) ANNULLI** - Non verranno accettati annullamenti di ordini se il materiale è già stato prodotto o se è già stata avviata la lavorazione e molto più se è già stata effettuata la spedizione. L'annullamento dell'ordine comporterà in ogni caso l'obbligo da parte del Committente di pagare l'intera fornitura. Nel caso che sia fattibile l'accettazione dell'annullamento il Cliente sarà tassativamente tenuto a rifondere tutte le spese sostenute dal produttore fino a quel momento.
- 9) PREZZI** - I prezzi riportati sui nostri listini non sono per noi impegnativi. Ci riserviamo il diritto di modificarli prima dell'accettazione dell'ordine.
- 10) PAGAMENTI** - I pagamenti devono essere effettuati solo presso la nostra sede. Il ritardo di 10 giorni di ogni pagamento dovuto, o la mancata copertura nel termine stesso di un titolo di credito, girato o ceduto o emesso dal committente, costituisce grado di insolvenza. In tal caso sarà nostra facoltà sospendere le forniture ed annullare ogni rapporto in corso; immediatamente esigere l'integrale pagamento di ogni rapporto in corso; esigere l'integrale pagamento di ogni nostro credito ed agire giudizialmente al riguardo, in via esecutiva o cautelare nonché per il risarcimento danni; in ogni caso, trascorsi 10 giorni da ogni pagamento dovuto, siamo autorizzati a emettere tratta a vista con spese senza preavviso. Inoltre decorreranno sul debito scaduto gli interessi moratori annui calcolati nella misura del tasso "prime rate" corrente maggiorato di 5 punti percentuali.
- 11) UNITÀ MINIMA DI VENDITA** - Non si effettuano vendite inferiori alla scatola.
- 12) RISERVATO DOMINIO** - Il materiale anche se spedito e regolarmente fatturato resta di nostra proprietà fino al pagamento totale della fornitura medesima anche in caso di passaggio o vendita terzi.
- 13) FORO COMPETENTE** - Per qualsiasi controversia sarà esclusivamente competente il foro di Modena.

SERVIZI DI LOGISTICA

- ANNULLAMENTO ORDINI:** per l'annullamento autorizzato di ordini di materiali già consegnati al nostro deposito, e per resi autorizzati, verrà addebitato il 15% del valore imponibile, con fisso minimo di 20€, per contributo spese di trasporto e rielezione.
- ORDINI MINIMI:** per ordinativi limitati che sono a "completamento" od "evasioni singole" il cui valore imponibile è inferiore a 100€, verrà applicata una maggiorazione di 20€ netta fissa.
- SPALLETTIZZATO:** per ordini di metratura inferiore al pallet completo, verrà applicata una maggiorazione.
- CONSEGNE URGENTI:** per preparazione di ordini entro le 24 ore, con un limite massimo di 2 articoli totali, verrà addebitata una maggiorazione di 30€ netta fissa.

IMBALLAGGI

- ADDEBITO** Gli imballaggi speciali delle collezioni Wide saranno addebitati al costo visibile nella tabella riepilogativa di ogni collezione.
- RESO** Gli stessi potranno essere resi e riaccreditati a condizione che vengano restituiti in buono stato.

## GENERAL SALES TERMS AND CONDITIONS

**1) APPROVAL** - All orders that we receive are considered to be binding only after our written confirmation has been issued.

**2) DELIVERY** - The materials are intended as delivered upon loading at our warehouses. All transport risks, including missing pieces, breakage, deterioration and tampering are the sole responsibility of the Client, even if the price agreed upon is carriage free, FOB, ar C&F. Agreements with forwarding agents are intended as concluded in the name of and on behalf of the Client, who hereby confirms and accepts their terms and conditions.

**3) TERMS OF DELIVERY** - The terms of delivery are indicative, eventual delays in the delivery, interruptions, or total or partial suspensions of the supply do not allow any right to indemnification or compensation for damages.

**4) DISPUTES** - The guarantee of the goods is limited only and exclusively to first rate materials, with a tolerance of approximately 5%. The difference in shades of colour cannot be declared as a material defect. Eventual complaints regarding the quality or the type of material must be submitted within 8 days from the date of delivery. The purchaser agrees to make available the disputed lots in order that the declared defects may be controlled. In any case, the installation exonerates the manufacturer from any liability. Eventual manufacturing defects or quality defects in the goods, where declared according to law and ascertained or recognized, give right only to the replacement of the defective materials, provided that the goods have been returned previously and the written authorization of the return operation has been issued, the resolution of the contract as well as any compensation for damages is peremptorily waived and excluded.

**5) DIMENSIONS AND TONALITY** - Our materials are classified as products fired at high temperatures and as such may present discrepancies between the dimensions declared and those actually delivered. The same applies for differences in colours within the same production lot. Therefore, the client may not present a dispute regarding above mentioned product characteristic.

**6) PACKAGING AND QUANTITY** - The good condition of the packaging and cartons as well as the quantity delivered are verified upon acceptance of the goods by the forwarding agent. The forwarding agent declares himself responsible for the condition and quality of the goods upon signing the packing list. In case of missing pieces of breakage, the purchaser must ask for eventual damages or compensation from the forwarding agent.

**7) RETURNS** - For no reason will purchaser be able to return the material without our express prior written authorization and all the costs of the return will be assumed by the Client.

**8) CANCELLATIONS** - Order cancellations will not accepted if the material has already been produced or if the production has already begun, and more so if the materials have already been shipped. In any case, the Client is obliged to pay the entire sum of the supply if the order is cancelled. If the acceptance of the cancellation is feasible, the Client will be peremptorily obliged to reimburse all the expenses sustained by the producer up to that moment.

**9) PRICES** - The prices on our price list are not binding. We reserve the right to modify prices before accepting an order.

**10) PAYMENT** - Payments must be made only in our main office. Delays of more than 10 days for each payment due or insufficient funds during rhe same term of a check, whether endorsed of transferred, or issued by the customer, constitutes bad debt. In this case, we reserve the right to suspend supply and annual all ongoing relations, immediately require total payment of all ongoing relations; require total payment of each credit and to make legal recourse, whether executive or precautionary, as well as request compensation for damages. In any case, after 10 days any payment due,we are authorized to issue an on-sight draft with expenses without notice. Furthermore, annual penalty interest will accumulate on the expired debt to be calculated according to the current “Prime rate” plus five (%) percentage points.

**11) MINIMUM PACKAGING REQUIREMENTS** - Sales of less than one box will not be allowed.

**12) SELLER'S LIEN** - The material, even is shipped and regularly invoiced, remains our property until payment in full of the invoice itself, even in case of passage or sale to third parties.

**13) PLACE OF JURISDICTION** - For any eventual dispute, the only place of jurisdiction will be the Modena Tribunal.

## LOGISTIC SERVICES

**CANCELLATION OF ORDERS** – for the authorized cancellation of orders for materials already delivered to our warehouse, and for authorized returns of the goods, 15% of the taxable value will be charged, with a minimum fixed contribution of € 20 towards transport and reselection costs.

**MINIMUM ORDERS** – for limited orders to complete a previous order or for single deliveries, with a taxable value of less than € 100, there is a fixed net surcharge.

**ORDERS FOR LESS THAN 1 PALLET** - for orders of less than one pallet, it will be applied a fix net surcharge.

**URGENT DELIVERIES** – for orders to be prepared within 24 hours, with a maximum quantity of 2 articles, there is a fixed net surcharge of € 30.

## PACKAGING

**CHARGES** Special packaging for wide collections will be charged according to the schedule at the end of each collection.

**RETURNS** The packaging may be returned in its original condition for credit against future orders.

## CONDITIONS GÉNÉRALES DE VENTE

**1) ACCEPTATION** - Les commandes parvenues ne seront valables de manière définitive qu’après confirmation écrite de notre part.

**2) LIVRAISON** - La livraison du matériel est à considérer effectuée au moment du chargement dans nos entrepôts. Tous les risques de transport, tels que les manques, les casses ,détériorations ou endommagements sont à la charge de l’Acheteur, même lorsque le prix convenu est franco , FOB ou C&F. Les accords conclus avec les transporteurs sont à considérer toujours au nom et pour compte de l’Acheteur, qui confirme et accepte le conditions au préalable.

**3) DÉLAIS DE LIVRAISON** - Les délais de livraison ont un caractère indicatif; les éventuels retards de livraisons, interruptions, suspensions totales ou partielles des fournitures ne donneront droit à aucun dédommagement ou remboursement et intérêts.

**4) RÉCLAMATIONS** - La garantie de la marchandise se limite seulement et exclusivement au materiel de premier choix, avec une marge de tolérance de 5% environ. Les différences de nuances ne pourront être dénoncées comme vice du matériel. Les éventuelles réclamations relatives à la qualité, au type de matériel, devront nous parvenir dans les 8 jours à partir du jour de livraison. L’Acheteur s’engage à mettre à disposition les parties contestées de manière à permettre le contrôle des défauts déclarés, sachant que la pose nous libère quoiqu’il en soit de toute responsabilité. Les éventuels vices ou défauts de qualité de la marchandise, si déclarés en vertu des termes de loi et confirmés ou reconnus, ne donnent droit qu’a la substitution des matériaux défectueux, à condition que les marchandises contestées ne soient rendues préalablement et, sur autorisation écrite de l’opération de restitution, en renonçant et en excluant ainsi de manière formelle la résolution du contrat tout comme les éventuels dommages et intérêts.

**5) DIMENSIONS ET NUANCES** - Nos matériels se classent parmi les produits cuits à haute températures et peuvent présenter en tant que tels des différences entre les dimensions déclarées et celles effectivement livrées.

C’est ainsi que sont considérées les différences de nuance à l’intérieur d’un même lot. C’est pourquoi, en vertu des conditions présentées précédemment, ceci ne pourra faire l’objet d’aucune réclamation de la part de l’Acheteur.

**6) EMBALLAGE ET QUANTITES** - Le bon état des emballages, ainsi que de la quantité livrée est confirmé après acceptation de la marchandise de la part du transporteur. Ce dernier, en signant le Bon de Livraison, se tient responsable du bon état du matériel et de la quantité. En cas de casses ou manques, l’acheteur devra demander des éventuels dommages et intérêts ou dédommagements au transporteur.

**7) RESTITUTIONS** - En aucun cas l’Acheteur ne pourra rendre la matériel sans préalablement recevoir une autorisation écrite de notre part et tous les frais sont à la charge de l’Acheteur.

**8) ANNULLATIONS** - Aucune annulation de commandes ne sera acceptée si le matériel a déjà été produit ou si la phase de production a déjà été commencé, ni même si la livraison a déjà été effectuée. L’annulation de la commande comportera dans tous les cas l’obligation de la part de l’Acheteur de payer la totalité de la marchandise. Au cas ou l’acceptation de l’annulation est faisable, le Client sera formellement tenu à recouvrir tous les frais engendrés par le producteur jusqu’alors.

**9) PRIX** - Les prix reportés sur nos catalogues ne sont pas définitifs. Nous nous réservons le droit de les modifier avant l’acceptation de la commande.

**10) PAIEMENTS** - Les paiements ne doivent être effectués qu’auprès de notre siège. Le retard de plus de 10 jours de tout paiement dû ou la non couverture dans le même délai d’un titre de crédit, transféré ou cédé,ou bien émis par l’Acheteur, consitue un niveau d’insolvabilité. Dans ce cas, il est en notre pouvoir de suspendre les livraisons et annuler tout rapport en cours; d’exiger le paiement intégral et immédiat de nos crédits; d’exiger le paiement intégral de tout en notre faveur et d’agir judiciairement à cet égard, de manière exécutive ou préventive ainsi que pour les dommages et intérêts. Dans tous les cas, aussitôt qu’un paiement du dépasse le délai des 10 jours, nous sommes autorisés à émettre une traite à vue avec frais sans préavis. En outre, les intérêts moratoires annuels calculés en fonction du taux “premiers versements” courant majoré à 5 points pourcents, prendrant effet sur le débit dépassé.

**11) MINIMUM UNITE DE VENTE** - Aucune vente inférieure à la boîte ne peut être effectuée.

**12) DOMAINE RÉSERVÉ** - Le matériel, même si livré et régulièrement facturé reste notre propriété jusqu’au paiement total de ladite marchandise, même en cas de passage ou vente à un tiers.

**13) TRIBUNAL COMPÉTENT** - Le Tribunal de Modena sera compétent de manière exclusive en cas de litige.

## SERVICES LOGISTIQUES

**ANNULATION D’UNE COMMANDE** – pour annuler une commande de matériaux déjà livrés à notre dépôt, et pour une restitution autorisée, une somme équivalente à 15 % de la valeur imposable vous sera débitée, avec un montant fixe minimum de 20€, en tant que participation aux frais de transport et de resélection.

**COMMANDES MINIMUM** – pour les commandes visant à “compléter” ou constituant des “expéditions individuelles” dont la valeur imposable est inférieure à 100€, un supplément de 20€ net et fixe sera appliqué.

**MATÉRIEL DÉPALETTISÉ** – pour des commandes dont le métrage est inférieur à une palette complète, un supplément sera appliqué.

**LIVRAISONS URGENTES** – pour la préparation de commandes à livrer dans les 24 heures, avec une limite maximum de 2 articles en tout, un supplément de 30€ net et fixe sera appliqué.

## EMBALLAGES

**COÛT** Les emballages spéciaux des collections Wide seront facturés au coût indiqué dans le tableau resumé de chaque collection.

**RETOUR** Ils pourront être retournés et faire l’objet d’un remboursement à condition qu’ils soient en bon état.

## ALLGEMEINE VERKAUFSBEDINGUNGEN

© 2014 WIDE

www.wide.com

**1) BESTÄTIGUNG** - Eingegangene Bestellungen sind für uns nur verbindlich, wenn sie schriftlich durch uns bestätigt wurden.

**2) LIEFERUNG** - Die Lieferung des Materials ist für uns mit dessen Beladung bei unserem Lager abgeschlossen. Alle durch den Transport bedingten Risiken, einschließlich Fehlmengen, Bruch, Beschädigung und sonstige Beeinträchtigungen gehen zu Lasten des Auftraggebers, auch wenn der vereinbarte Preis frachtfrei. FOB oder C&F ist. Die Vereinbarungen mit den Speditionsunternehmen werden im Namen und auf Rechnung des Auftraggebers getroffen, der die Entlastung bestätigt und erteilt.

**3) LIEFERFRISTEN** - Die Lieferfristen sind ungefähre Angaben; im Falle einer Verzögerung, Unterbrechung bzw. teilweiser oder kompletter Aussetzung der Lieferungen besteht kein Recht auf Entschädigung oder Schadenerstatz.

**4) BEANSTANDUNGEN** - Die Garantie auf die Ware bezieht sich ausschließlich auf Material erster Wahl, bei einer Toleranz von ca. 5%. Unterschiede bei Farbtönen können nicht als Materialfehler geltend gemacht werden. Eventuelle Beanstandungen in Bezug auf die Qualität und Materialart müssen innerhalb von 8 Tagen ab dem Lieferdatum bei uns eingehen. Der Käufer verpflichtet sich, die beanstandeten Warenpartien für die Überprüfung der angezeigten Mängel zur Verfügung zu halten. Die Verlegung des Materials befreit uns in jedem Fall von jeglicher Haftung. Eventuelle Fehler oder Qualitätsmängel der Ware, sofern diese innerhalb der gesetzlich vorgeschriebenen Fristen gemeldet, überprüft und anerkannt wurden, beinhalten lediglich das Recht auf einen Umtausch der fehlerhaften Materialien, unter der Bedingung, dass die beanstandete Ware vorher, nach schriftlicher Genehmigung der Warenrückgabe, zurückgeschickt wurde und unter Verzicht und Ausschluss des Anspruchs auf eine Vertragsauflösung oder jegliche Art von Schadenersatz.

**5) ABMESSUNGEN UND FARBTÖNE** - Unsere Materialien sind als Produkte klassifiziert, die bei hohen Temperaturen gebrant werden, weshalb es sein kann, dass die tatsächlichen Abmessungen von den genannten Abmessungen abweichen. Das gleiche gilt für Farbunterschiede innerhalb desselben Warenpostens. Diese Umstände geben dem Auftraggeber kein Recht zu Beanstandungen.

**6) VERPACKUNG UND MENGE** - Mit Annahme der Ware durch das Beförderungsunternehmen gelten der gute Zustand der Verpackungen sowie die übergebene Warenmenge als bestätigt. Das Transportunternehmen übernimmt mit Unterzeichnung des Versandscheins die Verantwortung für den guten Zustand und die Menge des Materials. Der Käufer muss sich im Fall von Brüchen oder Fehlware für eventuelle Schäden oder Entschädigungen as das Beförderungsunternehmen wenden.

**7) WARENRÜCKGABE** - Der Käufer kann die Ware in keinem Fall ohne unsere ausdrückliche schriftliche Genehmigung zurückgeben; alle entstehenden Kosten werden vom Auftraggeber übernommen.

**8) STORNIERUNGEN** - Auftragsstornierungen werden nicht akzeptiert, wenn das Material bereits hergestellt wurde, die Produktion angelaufen ist oder die Ware gar bereits verschickt wurde. Bei der Stornierung einer Bestellung ist der Auftraggeber in jedem Fall verpflichtet, die gesamte Lieferung zu bezahlen. Falls die Stornierung akzeptiert wird, ist der Kunde verpflichtet, alle Kosten zu übernehmen, die dem Hersteller bis zu diesem Zeitpunkt entstanden sind.

**9) PREISE** - Die in unserer Preisliste angegebenen Preise sind für uns nicht verbindlich. Wir behalten uns das Recht vor, diese vor de Beststellungsannahme zu ändern.

**10) ZAHLUNG** - Die Zahlungen können nur direkt an uns erfolgen. Eine Verspätung von mehr als 10 tagen jeder geschuldeten Zahlung bzw. die fehlende Deckung eines girierten, abgetretenen oder vom Auftraggeber ausgestellten Kreditpapiers innerhalb desselben Zeitraums wird als Zahlunsunfähigkeit gewertet. In diesem Fall haben wir das Recht, die Lieferungen auszusetzen und jedes bestehende Geschäftsverhältnis abzubrechen; unverzüglich die vollständige Zahlung aller unserer Forderungen im Rahmen eines Vollstreckungs- oder Sicherstellungsverfahrens rechtlich zu beanspruchen, ebenso wie eine Entschädigung; in jedem fall sind wir 10 Tage nach Ablauf der Zahlungsfrist berechtigt, ohne Vorankündigung eine Sichttratte zuzüglich der entsprechenden Kosten auszustellen. Außerdem werden auf den geschuldeten Betrag die jährlichen Verzugszinsen in Höhe des laufenden, um fünf Prozentpunkte erhöhten Privatkontsatzes berechnet.

**11) VERPACKUNGSGRÖSSE** - Es werden keine Mengen unterhalb der Größe eines Kartons verkauft.

**12) EIGENTUMSVORBEHALT** - Das Material bleibt auch bei regulärem Transport und normaler Rechnungsstellung bis zur vollständigen Bezahlung der Lieferung in unserem Eigentum, auch im Falle der Weitergabe oder des Verkaufs an Dritte.

**13) GERICHTSSTAND** - Gerichtsstand in Streitfällen ist ausschließlic das Gericht Modena.

## LOGISTIC SERVICES

**STORNIERUNG VON BESTELLUNGEN** - Für die Genehmigte Stornierung von Bestellungen von bereits an unser Lager gelieferten Materialien, und für autorisierte Rückgaben, werden 15% des Steuerwertes bzw. mindestens 20€ als Kostenbeitrag für den Transport und die erneute Auswahl in Rechnung gestellt.

**MINDESTBESTELLUNGEN** - für beschränkte Bestellungen zur „Fertigstellung“ oder „Einzelabfertigung“, deren Steuerwert unter 100 € liegt, wird ein fixer Nettoaufschlag von 20 € in Rechnung gestellt.

**KOMMISSIONSZUSCHLAG** - zu allen als eine volle Paletten geringere Auftraege wird ein Zuschlag angewandt werden.

**DRINGENDE AUFTRAEGE** - Zu Auftraegen, die ausnahmweise in 24 Stunden abgewickelt werden sollen, wird einen Fix-Zuschlag von 30,00 € angewandt werden.

## VERPACKUNGEN

**BELASTUNG** Die Verpackungskosten für die WIDE Serien werden auf die Übersicht von jeder Serie bekanntgegeben.

**ZURÜCKERSTATTUNG** Unter der Voraussetzung, dass sie in gutem Zustand zurückerstattet werden, können sie zurückgesandt und wieder gutgeschrieben werden.

## ОБЩИЕ УСЛОВИЯ ПРОДАЖИ

www.wide.com

© 2014 WIDE

**1 ПОДТВЕРЖДЕНИЕ** - Поступившие к нам заказы действительны только после нашего письменного подтверждения.

**2 ПОСТАВКА** - Поставка материала считается выполненной в момент окончания погрузки на наших складах. Заказчик несет все риски, связанные с транспортировкой, включая неостачу, поломку, порчу и нарушение целостности упаковки, также если на продукцию установлена цена франко-порт, FOB или C&F. Соглашения с экспедиторами всегда заключаются от имени и за счет Заказчика, который с момента заключения соглашения утверждает и принимает проделанную работу.

**3 СРОКИ ПОСТАВКИ** - Сроки поставки имеют ориентировочный характер, возможная задержка поставки, ее приостановка, частичное или полное прекращение не дают права на возмещение убытков или компенсацию за ущерб.

**4 ПРЕДЪЯВЛЕНИЕ ПРЕТЕНЗИЙ** - Гарантия на товар распространяется только и исключительно на первосортный материал с допусκαемым отклонением приблизительно на 5%. Различия в оттенках не будут считаться дефектом материала. Возможные претензии в отношении качества, типа материала должны быть предъявлены в течение 8 дней с даты поставки. Покупатель обязуется предоставить признанные им дефектными партии товара для проверки обоснованности претензии; в любом случае, после укладки материала мы не несем никакой ответственности. Возможные выявленные или подтвержденные недостатки или дефекты качества товара, при условии, что покупатель заявил о них в течение установленных законом сроков, дают покупателю право только на замену дефектного материала, которая осуществляется после возврата дефектного товара и на основании акта о возврате товара, составленного в письменной форме, при этом категорически исключается отказ от договора или его расторжение, а также какое-либо возмещение убытков.

**5 РАЗМЕРЫ И ОТТЕНКИ** - Наши материалы относятся к продуктам, которые подвергаются обжигу при высокой температуре, поэтому заявленные и реальные размеры поставленных изделий могут отличаться. Это касается и различий в оттенках изделия из одной и той же партии. В связи с этим размеры и оттенки не могут быть предметом рекламации со стороны заказчика.

**6 УПАКОВКА И КОЛИЧЕСТВО** - Перевозчик должен проконтролировать груз по количеству и целостности упаковки при приемке товара. Перевозчик, подписывая Сопроводительную Накладную, несет ответственность за сохранность материала и за его количество. В случае обнаружения повреждений и недостачи возможные претензии о возмещении ущерба за понесенные убытки покупатель должен предъявлять перевозчику.

**7 ВОЗВРАТ ТОВАРА** - Покупатель не может ни на каком основании осуществлять возврат товара без нашего предварительного письменного согласия. Все расходы будут отнесены на счет Заказчика.

**8 АННУЛИРОВАНИЕ ЗАКАЗА** - Отмена заказа не будет приниматься, если материал был уже изготовлен, или если уже было начато его производство, а тем более, если уже была произведена отправка. В любом случае, при отмене заказа Заказчик будет обязан произвести оплату всей поставки. Если отмена заказа будет возможна, Клиент должен будет возместить все расходы, понесенные производителем до момента отмены.

**9 ЦЕНЫ** - Цены, указанные в наших прайс-листах, имеют ориентировочный характер. Мы оставляем за собой право изменить цены перед принятием заказа

**10 ПЛАТЕЖИ** - Оплата товара должна производиться только прямым платежом. Задержка более чем на 10 дней каждого причитающегося платежа или отсутствие покрытия в срок векселя, который был передан, уступлен или выставлен заказчиком, является состоянием неплатежеспособности. В таком случае мы оставляем за собой право приостановить поставку, отменить все текущие отношения, а также немедленно потребовать полной выплаты каждой задолженности и обращаться по этому поводу в суд, в исполнительном или предупредительном порядке, а также с требованием возмещения ущерба; в любом случае, по истечении 10 дней с даты причитающегося платежа, мы имеем право без предупреждения выписать переводный вексель на предьявителя с оплатой издержек. Кроме того, на просроченную задолженность начисляются проценты по неустойке по текущей процентной ставке 5 % годовых.

**11 РАСПАКОВКА КОРОБОК** - Продажа товара осуществляется только целыми заводскими коробками.

**12 ПРАВО УДЕРЖАНИЯ ТОВАРА** - товар остается нашей собственностью до момента полной оплаты поставки даже в случае, если была произведена отправка, и был выставлен счет-фактура также в случае передачи или продажи товара третьим лицам.

**13 КОМПЕТЕНТНЫЙ СУД** - Рассмотрение любых споров будет находиться в исключительной компетенции Суда г. Модены.

## ЛОГИСТИЧЕСКИЕ УСЛУГИ

**ОТМЕНА ЗАКАЗОВ** – в случае отмены заказов на поставку материалов, уже поставленных на наш склад, покупатель обязан оплатить 15% облагаемой налогом их стоимости, а также минимальную фиксированную сумму в размере 20€, взимаемую в качестве оплаты транспортных расходов и пересортировки.

**МИНИМАЛЬНЫЙ ЗАКАЗ** – в случае ограниченных заказов, представляющих собой как «отдельные заказы», так и «дополнения» к другим заказам, облагаемая налогом стоимость которых составляет менее 100€, применяется чистая фиксированная надбавка в размере 20€.

**ПОСТАВКА НЕПОЛНЫХ ПАЛЛЕТОВ** – Заказы, площадью менее чем полный поддон, будут подвергаться увеличению тарифа.

**СРОЧНЫЕ ПОСТАВКИ** – при подготовке заказов в течение 24 часов, содержащих максимум 2 артикула, применяется чистая фиксированная надбавка в размере 30€.

\* I cavalletti per carico su container prevedono 18 lastre in 12 mm anzichè 22 e 10 lastre in 20 mm anzichè 12.

\* A Frame for container loading contains 18 slabs in 12 mm thickness and not 22, 10 slabs in 20 mm thickness and not 12.

12 MM 163,5x323

FLAVIKER garantisce una superficie utile pari a 1635x3230 mm, la fatturazione invece è calcolata sulla base del formato 1600x3200 mm

Su richiesta, le lastre in 12 mm di FLAVIKER possono essere rinforzate strutturalmente con una stuoia in fibra di vetro applicata sul retro con apposito collante. L'applicazione della stuoia prevede una maggiorazione di € 9,00 al mq sul prezzo netto della lastra.

FLAVIKER guarantees a useful surface area of 1635x3230 mm whereas billing is calculated on the basis of a 1600x3200 mm size.

On request, the 12 mm slabs from FLAVIKER can be reinforced with fiberglass matting applied to the rear surface using a special adhesive. The fiberglass matting application involves a 9,00 € per sqm increase on the slab's net price.

I dati riferiti ai contenuti per scatole ed ai pesi degli imballi sono aggiornate al momento della stampa del catalogo.

The data referred to the content per box and to the packing weight are update at the catalogue printing time.
