GRES PANIA

NOVEDADES

NOVELTIES

En la constante búsqueda de la excelencia mediante la calidad en diseño e innovación tecnológica, Grespania presenta nuevas colecciones inspiradas en exclusivos mármoles, piedras y cementos, con nuevas técnicas que aportan acabados de gran realismo con los que satisfacer las necesidades del interiorista y arquitecto.

As part of its continual search for excellence through quality in design and technological innovation, Grespania presents new collections inspired by exclusive marble, stone and cement, incorporating new techniques that yield highly realistic finishes to satisfy the needs of interior designers and architects.

In seinem konstanten Streben nach Spitzenleistung durch Designqualität und technologische Innovation präsentiert Grespania neue Kollektionen, die von exklusivem Marmor, Stein und Zement inspiriert sind, mit neuen Techniken und äußerst realistischen Oberflächen, die die Anforderungen jedes Inneneinrichters und Architekten erfüllen.

Dans sa quête perpétuelle d'excellence à travers la qualité du design et l'innovation technologique, Grespania présente de nouvelles collections inspirées de marbres, de pierres et de bétons exclusifs, utilisant de nouvelles techniques qui permettent d'obtenir des finitions très réalistes afin de répondre aux besoins des architectes et des décorateurs d'intérieur.

2 Nuevas tecnologías

New technologies

CARVED TECHNOLOGY

Los materiales naturales como mármoles y piedras presentan relieves en su superficie que se visualizan tanto en la textura como en la gráfica. CarvedTechnology consigue un máximo realismo proporcionando un aspecto muy natural a las piezas gracias al efecto sincronizado de bajo relieve que surca sus vetas.

Natural materials such as marble and stone have reliefs on their surface displayed in both texture and graphics. CarvedTechnology achieves the utmost realism by giving tiles a very natural look through the synchronized bas-relief effect of indented veins.

Die natürlichen Materialien, wie Marmor und Stein, weisen Reliefs an ihren Oberflächen auf, die sowohl in der Textur als auch in der Grafik sichtbar werden. Die CarvedTechnology schafft maximalen Realismus und bietet den einzelnen Platten ein sehr natürliches Erscheinungsbild, dank des aufeinander abgestimmten Niederrelief-Effekts, der ihre Maserungen durchläuft.

Les matériaux naturels, tels que le marbre et la pierre, sont recouverts de reliefs visibles tant au niveau de la texture que des motifs. CarvedTechnology permet d'atteindre un degré de réalisme supérieur en procurant aux pièces une apparence très naturelle grâce à un effet de bas-relief harmonisé soulignant leurs veinures.

3D TECHNOLOGY

Gracias a 3DTechnology se consigue el efecto de piedra o mármol envejecido con el tiempo, que con su uso se apomaza o desgasta con un efecto de pulido mate.

3DTechnology makes it possible to create the effect of stone or marble that has aged over time, honed or worn through use to a matte finish.

Dank der 3DTechnology wird ein mit der Zeit gealterter Stein- oder Marmoreffekt erreicht, der sich durch die Nutzung mit mattem, poliertem Effekt abreibt oder verschleißt.

3DTechnology permet d'obtenir un aspect de pierre ou de marbre vieilli et qui, à l'usage, devient patiné ou décapé avec un effet poli mat.
