

A surreal interior scene featuring a large, billowing mass of soft, pink, cloud-like or cotton-like material. The mass is positioned in the center of a grand, classical-style hallway with high ceilings, arched windows, and ornate architectural details. The ceiling is painted a light blue, and the walls are a warm, light pinkish-beige. The floor is a light, neutral color. The overall atmosphere is dreamlike and ethereal. The text 'DAY DREAM' is overlaid in the center of the image in a bold, pink, sans-serif font.

DAYDREAMING

Il catalogo ABK sperimenta, fa tendenza, accende l'immaginazione. Le nostre superfici riproducono, in maniera sia tattile che visiva, le sensazioni delle materie naturali e allo stesso tempo danno forma alle visioni più astratte dei designer, per immaginare, progettare e trasformare gli spazi in chiave contemporanea e anticonvenzionale.

The ABK catalogue pushes boundaries, sets trends and fires the imagination. Our surfaces capture the tactile and visual essence of natural materials while bringing designers' most abstract visions to life, enabling spaces to be reimagined, designed and transformed in unconventional and contemporary ways.

IL NOSTRO IMPEGNO PER L'INNOVAZIONE

OUR COMMITMENT TO INNOVATION

3D tech

Le superfici 3D di ABK rappresentano un'innovazione nel mondo del design grazie all'uso della tecnologia 3DTech, che consente di applicare differenti materie ceramiche, anche a spessore, in perfetta corrispondenza con la grafica sottostante, realizzata in digitale ad altissima definizione. Un processo produttivo rivoluzionario, che combina la matericità con l'estetica del prodotto, fino ad ottenere superfici dallo straordinario valore sensoriale.

La tecnologia 3DTech permette di creare texture tridimensionali altamente realistiche e di grande impatto estetico e consente di arricchire le superfici con profondità visiva e tattile, trasformandole in elementi distintivi per qualsiasi ambiente, sia residenziale che commerciale

ABK's 3D surfaces are a veritable breakthrough in design, thanks to the use of 3DTech technology: different ceramic materials may be applied, even within the tile body, in perfect alignment with the underlying high-definition digital pattern.

A revolutionary production process that combines materiality with product aesthetic appeal, for extraordinarily sensorial surfaces. 3DTech technology enables the creation of highly realistic visually striking three-dimensional textures. Surfaces are enhanced with visual and tactile depth, transforming them into distinctive elements for any space, be it residential or commercial.

LUX 3D

La finitura Lux 3D si caratterizza per il suo effetto lucido e brillante, pur mantenendo dettagli in bassorilievo per un effetto visivo sofisticato e ricercato. Ideale per ambienti moderni ed eleganti, dona un senso di spaziosità e luminosità grazie al riflesso della luce sulle superfici.

LUX 3D DECORATIONS

The Lux 3D finish is characterised by its glossy and luminous effect, while maintaining bas-relief details making it visually sophisticated and refined. Ideal for modern and elegant settings, it bestows a sense of space and luminosity thanks to the light reflecting on the surfaces.

ANTIQUÉ 3D

La finitura Antique 3D richiama il fascino dei marmi consumati dal tempo, unendo eleganza classica e autenticità. Caratterizzata da un corpo leggermente strutturato, combina rilievi delicati e texture materiche per creare superfici dall'aspetto vissuto, ideali per donare agli spazi un carattere unico e un design ricco di personalità.

The Antique 3D finish is reminiscent of the charm of time-worn marbles, combining classic elegance and authenticity.

Characterised by a slightly structured body, it combines delicate embossing and material textures to create surfaces with a lived-in look, ideal for giving spaces unique character and a design rich in personality.

NAT 3D DECORATIONS

Le superfici tridimensionali Nat 3D offrono un effetto naturale e autentico, grazie a texture che richiamano materiali grezzi. Questa finitura è ideale per chi desidera creare ambienti dallo stile essenziale e contemporaneo, aggiungendo un tocco di carattere che valorizza ogni spazio.

Nat 3D three-dimensional surfaces feature a natural and authentic effect, thanks to textures that evoke raw materials. This finish is perfect for anyone who wants to create spaces with a minimalist and contemporary vibe, adding a touch of character that can enhance any and every space.

IL NOSTRO IMPEGNO PER L'INNOVAZIONE

OUR COMMITMENT TO INNOVATION

SOFT 3D

La tecnologia SOFT 3D consente di realizzare lastre dalla finitura extra morbida arricchite da effetti di bassorilievo che ne esaltano la naturalezza. La differente densità delle materie utilizzate in superficie, nelle zone selezionate, ricrea chimicamente le profondità, che si sovrappongono in maniera esatta alla grafica digitale ad alta risoluzione.

The SOFT 3D technology allows to create slabs with an extra smooth finish, enriched with bas-relief effects that enhance the naturalness of the surface. The different density of the raw materials applied in the selected areas, chemically recreates the depths that exactly match the high-resolution digital graphic.

P. tech

La tecnologia PTECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. PTECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti PTECH, R10 ed R11, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e outdoor, anche in aree pubbliche o commerciali.

The unique PTECH technology improves slip resistance while maintaining a pleasant tactile sensation. PTECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, R10 and R11 PTECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness and outdoor spaces in public or commercial areas.

FULLBODY3D

Grazie ai più evoluti sistemi di miscelazione e pressatura degli impasti ceramici, ABK è in grado di ricreare la complessa struttura dei materiali lapidei. L'esclusiva tecnologia FULLBODY 3D permette di ottenere ciò che la natura ha creato nei millenni, riproducendo l'estetica delle pietre sia in superficie che nel corpo della lastra. La continuità tra massa, superficie e bordo delle lastre è garantita anche dopo le operazioni di taglio, foratura e rifinitura necessarie a ottenere il prodotto finito.

ABK uses the most advanced ceramic body mixing and pressing systems to recreate the complex structure of stone. Emulating the processes that occur in nature over millions of years, the unique FULLBODY 3D technology reproduces the aesthetics of stone both on the surface and within the body of the slab. This ensures seamless continuity between the body, the surface and the edge of the slabs even after cutting, drilling and finishing operations.

Variabilita' cromatica /

Shade variation

Le superfici Poetry Colors ricreano la sensazione tipica dei prodotti ceramici artigianali, per questo sono caratterizzate da una certa variabilità cromatica che distingue una piastrella dall'altra. Per ottenere una posa ottimale, si consiglia di stendere preventivamente porzioni di materiale avendo cura di miscelare le diverse tonalità, prima di procedere con l'installazione.

The Poetry Colors surfaces recreate the distinctive feel of handcrafted ceramic products, which is why they display a certain variation in shade between one tile and another. For the best results, it is advisable to lay out areas of tiling before fixing the tiles in place to ensure that the different shades are mixed up properly.

Decorati fatti a mano / Handmade decors

Le decorazioni SWIM, coerentemente con la visione "handmade" dell'intero progetto Poetry Colors, sono prodotte artigianalmente. Le piccole differenze tra i diversi pezzi ne attestano l'unicità, poiché ogni elemento è realizzato con cinque passaggi serigrafici tutti eseguiti a mano. SWIM decorations are artisanal products designed in accordance with the handmade concept underpinning the entire Poetry Colors collection. The small differences between one tile and another mean that every piece is unique and are caused by the fact that the tiles are decorated in five separate screen-printing steps, all carried out by hand.

Articoli realizzati con metalli / Items produced with metals

Si consiglia di pulire la superficie senza utilizzare prodotti contenenti sostanze abrasive per non alterare la brillantezza del metallo. Do not use products containing abrasive substances to clean the decorative element so as not to affect the shine of the metal.

IMBALLI PACKAGING

NUOVI SISTEMI DI IMBALLO

L'innovazione del progetto lastre si esprime anche attraverso la parte logistica del progetto. ABK Group rivoluziona il sistema di imballaggio delle lastre ed è a oggi l'unica azienda che ha portato il sistema a cavalletto impilabile alla dimensione di cm 75x284x147,5 (lastre 120x280), 75x168x109 (lastre 80x160) e 75x26x200 (lastre 26x200).

Questi i principali vantaggi offerti:

-essendo impilabile permette di ottimizzare gli spazi all'interno dei magazzini.*

- la profondità di 75 cm consente di sfruttare a pieno il volume di carico dei container (3 pallets ne occupano perfettamente la larghezza).

- Il posizionamento verticale del prodotto garantisce una maggiore protezione delle lastre durante le fasi di trasporto.

- facilita le operazioni sul cantiere in quanto le lastre si trovano già posizionate in verticale, il materiale è facilmente ispezionabile e removibile per l'installazione.

- le dimensioni complessive del cavalletto consentono maggiori spazi di manovra all'interno dei locali di posa rispetto alle casse tradizionali e agevolano il sollevamento del materiale mediante mezzi meccanici (gru-montacarichi).

-è caratterizzato da un sistema di regettatura che consente di liberare anche 1 solo collo alla volta, senza compromettere la stabilità del materiale che rimane sul pallet, evitando così il rischio di rotture. Le lastre dovranno essere liberate rispettando la sequenza opposta rispetto a quella con cui sono state confezionate, quindi iniziando dall'ultimo collo regettato.

NEW PACKAGING SYSTEMS

Innovation in slab's range is also reflected in the project's logistics. ABK Group has revolutionised the packaging of ceramic slabs and is the only company to have expanded the stacking rack pallet system to the 75x284x147,5 (slabs 120x280), 75x168x109 (slabs 80x160) e 75x26x200 (slabs 26x200) cm size.

This has the following advantages:

- stacking optimises the use of space in warehouses.*

- the 75 cm depth enables full use of container load space (3 pallets fit perfectly side by side). The vertical positioning of the product better protects the slabs during shipping.

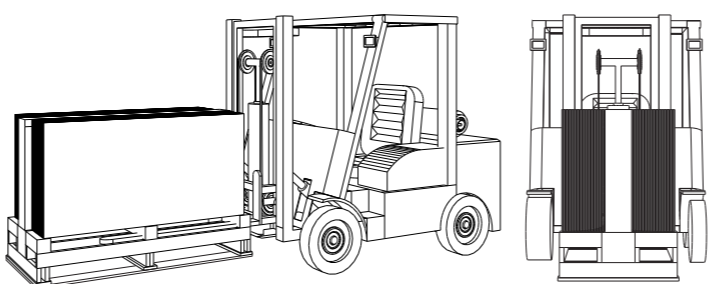

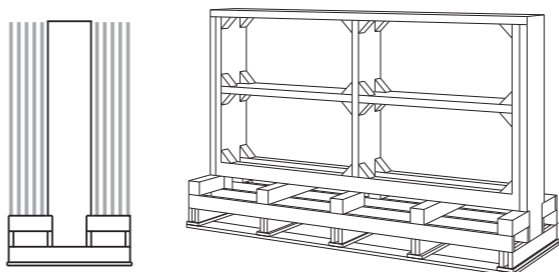

- it facilitates work on site, since the slabs are already positioned vertically, making the material easy to inspect and remove for installation.

- the overall size of the rack pallet provides greater space for manoeuvring in the installation area in comparison with conventional crates, and also makes it easier to lift the slabs mechanically (with a crane or lift).

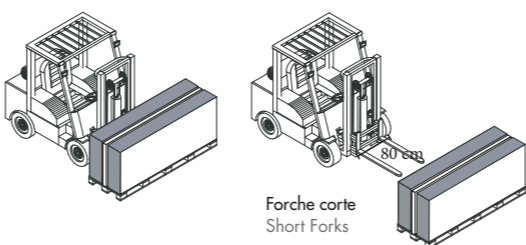

- the rack pallet system employs strapping which allows the user to remove a single package at a time without affecting the stability of the other packages on the pallet, thus minimising the risk of breakage. The slabs must be released from the packaging by reversing the packaging sequence, i.e. starting with the last package to have been strapped on.
